Registration and Program at
<http://escribconsortium.org/telehealth>

The Eastern Sierra Connect Regional Broadband Consortium is facilitating broadband capacity and adoption by:

- Helping identify the communities in need of **broadband / high-speed Internet,**
- Encouraging providers and local organizations to deploy **appropriate and affordable technology to connect communities,**
- Promoting broadband access and adoption through **workshops for residents and businesses in Mono, Inyo and eastern Kern counties.**

CONNECT ON THE WILD SIDE!

The project is supported by **California PUC** and is run by the **Desert Mountain Resource Conservation and Development Council (RC&D).**
