

BOARD OF SUPERVISORS MEETING

MAY 4, 2021

Total Positive Cases for Mono County Residents (last 30 d...

TOTAL POSITIVE CASES: 1018 (30-DAY INCREASE: 0.89%)

BLUEPRINT FOR A SAFER ECONOMY

Metrics (week ending 04/24):

- ❑ Case Rate/100,000: 2.0 (case rates trending down)
 - ❑ Testing Positivity rate: 1.2% (slight increase)
- As the metrics show, we have met the Testing Positivity rate (2-4.9%) but not the Case Rate of less than 5.9 cases per 100,000 for the NEW Orange Tier.
- Under the new Guidelines** Mono County needs to meet BOTH metrics for 2 consecutive weeks to move to the ORANGE TIER when the new Vaccine Equity Metric goal is achieved.

SECTORS	Tier 1 Widespread (Case Rate >7 or Test Positivity >8%)	Tier 2 Substantial (Case Rate 4-7 or Test Positivity 5-8%)	Tier 3 Moderate (Case Rate 1-3.9 or Test Positivity 2-4.9%)	Tier 4 Minimal (Case Rate <1 or Test Positivity <2%)
Post 2 million administered in first Healthy Places Index quartile	CR >10	CR 4-10	CR 1-3.9	CR <1
Post 4 million administered in first Healthy Places Index quartile	CR >10	CR 6-10	CR 2-5.9	CR <2

* Statewide / ** Vaccine Equity Metric goal of 4 million doses

MONO COUNTY COVID-19 VACCINE DASHBOARD

Vaccinate Mono
Together we can end the pandemic.

Mono County Public Health has received **17,194 doses** of vaccine and issued:

- 7,954 first dose
- 7,183 fully vaccinated

VACCINES**

Your safety is a priority.

Provided at no cost.

Vaccination helps
end the pandemic.

CDC RECOMMENDS RESUMING USE OF J&J VACCINE

Updates as of April 25, 2021

What you need to know:

- CDC and the U.S. Food and Drug Administration (FDA) recommend use of Johnson & Johnson's Janssen (J&J/Janssen) COVID-19 Vaccine resume in the United States, after a temporary pause.
- Reports of adverse events following the use of J&J/Janssen vaccine suggest an increased risk of a rare adverse event called thrombosis with thrombocytopenia syndrome (TTS). Nearly all reports of this serious condition, which involves blood clots with low platelets, have been in adult women younger than 50 years old.
- A review of all available data at this time shows that the J&J/Janssen COVID-19 Vaccine's known and potential benefits outweigh its known and potential risks.
- However, women younger than 50 years old especially should be aware of the rare but increased risk of this adverse event and that there are other COVID-19 vaccine options available for which this risk has not been seen.
- CDC and FDA will continue to monitor the safety of all COVID-19 vaccines.
- **Seek medical care right away** if you develop [any of the symptoms below after receiving](#) the J&J/Janssen COVID-19 Vaccine.
- If you have any questions or concerns, call your doctor, nurse, or clinic.

CDC ISSUES UPDATED PUBLIC HEALTH RECOMMENDATIONS FOR FULLY VACCINATED PEOPLE (04/27)

Fully vaccinated people can:

- Visit with other fully vaccinated people indoors without wearing masks or physical distancing
- Visit with unvaccinated people (including children) from a single household who are at low risk for severe COVID-19 disease indoors without wearing masks or physical distancing
- Participate in outdoor activities and recreation without a mask, except in certain crowded settings and venues
- Resume domestic travel and refrain from testing before or after travel or self-quarantine after travel
- Refrain from testing before leaving the United States for international travel (unless required by the destination) and refrain from self-quarantine after arriving back in the United States
- Refrain from testing following a known exposure, if asymptomatic, with some exceptions for specific settings
- Refrain from quarantine following a known exposure if asymptomatic
- Refrain from routine screening testing if asymptomatic and feasible

OREGON EXPERIENCES SURGE; RESTRICTIONS RETURN

Oregon restores restrictions amid Covid surge boosted by vaccine hesitancy

- 'As your governor, I chose to save lives,' says Democrat Brown
- Worst per capita spread is in rural, Republican Grant county

- 15 of Oregon's 36 counties are now considered at "extreme risk" for coronavirus spread.
- Oregon has reimposed restrictions on public gatherings as COVID-19 cases rise again.
- Indoor dining banned, capacity reduced at gyms and entertainment venues.
