| To:      | Honorable Chair and Members of the Board of Supervisors                                      |
| From:    | Paul Roten, Director of Public Works   |
| Subject: | Proposition 68 – Request to Perform Work In-House for the Walker Park and Mono Lake Projects |

### Background:

At regular meetings of the Board of Supervisors the following actions were taken related to Proposition 68:

- January 21, 2020, adopted resolution R20-10 providing authorization for staff to apply for Proposition 68.
- October 6, 2020, board item giving direction to prioritize *County-owned and managed facilities* with identified capital improvement needs.
- February 6, 2024, Minute Order 24-033, adopted the Capital Improvement Plan (CIP) which includes the Proposition 68 work
- January 9<sup>,</sup> 2024, Minute Order 24-123 approving deed restrictions for projects located at Walker Park, Bridgeport Park and Lee Vining for incorporation of Proposition 68 work.

Public Works has held numerous presentations at the Regional Planning Advisory Committee (RPAC) meetings in Walker, Bridgeport and Lee Vining. In those we developed the details for the projects that we are moving forward with now.

### Discussion:

Work proposed at this point for all of the Proposition 68 projects includes:

- Walker Park Improvements Informal Bid process (see Exhibit A & Exhibit B)
- Bridgeport Park Improvements –Developing Bid Package for formal bid
- Mono Lake Park Improvements Informal Bid process (see Exhibit A & Exhibit B)
- Lee Vining Park Connection Work presently in progress with In-House forces

For the Walker Park and Mono Lake locations, Public Works sent requests for bids to 6 contractors and received either no response or responses that they would not be able to perform

the work. With the lack of response, and with the work well within the capabilities of our Facilities team, we recommend doing the work in-house.

Based on Public Contracting code, 22038 (c), if no bids are received through the formal or informal procedure, the project may be performed by the employees of the public agency by force account or negotiated contract without further complying with this article.

Please contact me at 760.932.5446 or by email at vvega@mono.ca.gov if you have any questions regarding this project.

Respectfully submitted,

Valoutine Vegon

| From:    | Karyn Spears, Assistant Director of Public Works        |
| Subject: | Authorization for Sheriff Truck Purchase                |

### Background:

The Sheriff's Department is replacing vehicle 0727 with yearly replacement allotment.

### Discussion:

The Sheriff is requesting to replace this vehicle with a new 2024 Chevy Silverado with upfitting for a total of \$90,357.62.

The purchases would include a "turnkey" installation of light bars, protective cages, radios, strobe lights, and other necessary equipment. This ensures a quality installation and reduces the potential for future installation related problems.

The truck proposed for replacement is included as Exhibit A.

Please contact me at 760.616.4651 or by email at kspears@mono.ca.gov if you have any questions regarding this project.

Respectfully submitted,

Karyn Spears - Assistant Public Works Director

| From:    | Karyn Spears, Assistant Director of Public Works        |
| Subject: | Authorization for Animal Control Truck Purchase         |

### Background:

The Sheriff's Department manages the Animal Control Division. Animal Control vehicle 0894 is beyond its useful life due to mileage and age. Vehicle 0894 does not include an AC body for transporting animals.

### Discussion:

The Sheriff's department is requesting to replace this vehicle with 1 new 2024 Chevy Silverado with and upfitting for a total of \$112,522.22.

The purchase would include a "turnkey" installation of an AC body for the well-being of animals during transportation, and other necessary equipment. This ensures a quality installation and reduces the potential for future installation related problems.

The truck proposed for replacement is included as Exhibit A with upfitting included as Exhibit B.

Please contact me at 760.616.4651 or by email at kspears@mono.ca.gov if you have any questions regarding this project.

Respectfully submitted,

Karyn Spears - Assistant Public Works Director

# AGENDA DESCRIPTION:

(A brief general description of what the Board will hear, discuss, consider, or act upon)

Presentation by Mono County Emergency Medical Services Chief Bryan Bullock regarding submission of Congressional Designated Spending funding application for a new ambulance. Also, approving CAO Moberly as the signing authority of the application. On February 28th, 2023, Interim CAO Mary Snyder informed the Board of the request for funding of three projects through Congressional Directed Spending (CDS). One of the items that was awarded was \$215,000 towards the purchase of a new ambulance. The next step in the process of receiving that funding is to submit the attached application. Other attachments include the purchase order of the new ambulance and gurney/load system, but for informational purposes only to show how much more would need to be requested in order to make that purchase. That funding request will be on a separate agenda item.

### **RECOMMENDED ACTION:**

Approve CAO Moberly as the signing authority of the application.

# FISCAL IMPACT:

Funding application would provide a total amount of \$215,000. The cost of the new ambulance with a gurney and load system included would cost \$341,000. The County would need to commit \$126,000 once the purchase order with Braun and Stryker was signed. This will be a separate agenda item.

Good Morning Sandra,

Great news - the House released the text for six of the compromise <u>FY24 Appropriations bills</u> yesterday and included **Mono County's \$215,000 CPF for Ambulance Replacement in the Agriculture & Rural Development explanatory statement!** Explanatory Statement can be found <u>here</u>. Your CPF is on PDF page 50. Congratulations!

Obviously, this bill still needs to be passed in the House and Senate (and get signed by the President) but all signs are pointing to the bill being signed into law by the end of the week.

**The remaining six appropriations bills** (including Defense, Financial Services—General Government, Homeland Security, Labor—HHS—Education, Legislative Branch, State—Foreign

Operations) are slated to be finished by March 22<sup>nd</sup>, 2024.

Again, congratulations on getting this secured!

Best, Jeremiah Van Auken

Dear Mr. Bullock

The application process has been <u>streamlined</u> for the Congressional Designated Spending / Community Programs Funding Grants. Please use the new application package attached to apply for the grant. Several items have been removed to simplify the process.

To receive the funding, a complete Community Facilities Grant application (attached) must be submitted. Please complete the forms and submit the other items for a complete application needed as soon as possible to the Community Program Specialist listed below: We will then process the application and obligate the funding for the project as soon as possible.

The Community Programs Specialist who will work with you on the application process is Tonja Galentine who can be reached at tonja.galentine@usda.gov or (209) 287-3626

### Important:

- Compliance with Build America Buy America (BABA) will be required for all construction materials.

- USDA Rural Development advises prospective applicants against taking any actions or incurring any obligations which would either limit the range of the alternatives to be considered or have an adverse effect on the environment. USDA Rural Development is required to identify potentially significant environmental impacts on the human environment prior to approval of a loan or grant. An environmental review will be conducted to determine what environmental impacts the proposed project will have, if any.

Procurement shall be made by one of the following methods: small purchase procedures; competitive sealed bids (formal advertising); competitive negotiation; or noncompetitive negotiation. Competitive sealed bids (formal advertising) is the preferred procurement method for construction contracts. Competitive negotiation, noncompetitive negotiation, design build and methods other than competitive sealed bids must be approved by the National Office prior to contract signing.

The attached application packet has the forms needed and the instructions to complete the application, should you have a question please contact Tonja Galentine at tonja.galentine@usda.gov or (209) 287-3626 or myself at <u>Sally.Tripp@usda.gov</u> or (559) 754-3149.

# 2.03 STRUCTURAL FRAMING

Side wall and rear wall construction shall consist of  $2" \ge 2" \ge 0.125"$  aluminum square tubing extensions welded together with a maximum of 14" centers. 1"  $\ge 2" \ge 0.125"$  aluminum tubing may be utilized in addition to  $2" \ge 2"$  tubing to accommodate custom compartment sizes. The bottom of the wall structure shall be sealed with a welded  $2" \ge 2"$  tube, a  $2" \ge 2"$  angle, or a 0.125" plate depending upon location. The wall structure shall be capped with a  $2" \ge 4" \ge 0.125"$  header upon which a  $2" \ge 2" \ge 0.125"$  roof structure is welded. This process provides a unitized roll cage structure for greater occupant safety. The front wall structure shall be constructed of formed aluminum channels to allow ample space for wiring raceways, heater hoses, and A/C hoses.

## 2.04 FOUNDATION SYSTEM

The foundation system shall consist of a 0.125'' aluminum sheet subfloor with foundation members securely welded under the subfloor. Transverse members (laterals) shall consist of  $3'' \ge 3'' \ge 0.375''$  structural angles.  $0.25'' \ge 1.5''$  aluminum stringers shall span longitudinally between the laterals.

A polyurethane adhesive sealant shall be applied to the edges of framing members that are bonded with NORBOND tape. An advanced two-part methacrylate structural adhesive shall be used to bond all side wall tubes to the exterior skin and door frames.

The module shall be constructed utilizing full-size sheet construction to minimize body seams. There shall be no corner or mid-body seams.

## 2.07 MODULE ROOF

The roof shall be supported by positive contact between sidewall framing and roof framing. All seams on the roof surface shall be continuously welded and body-worked on the outside. In order to avoid the possibility of paint and/or weld cracking, no extrusions shall be used in the exterior construction of the roof or corners of the module.

A contoured, 3/8'' aluminum plate, painted to match the module, shall be welded to the roof structure and project through the center of the roof to serve as anchorage for personal fall arrest equipment. The anchorage is designed and rated for a single person only.

The module roof front and rear edges shall be constructed to allow mounting of recessed lightbars.

| DATE:    | November 12, 2024   |

The California Department of Public Health, Sexually Transmitted Diseases Control Branch, has granted funds from the Centers for Disease Control and Prevention (CDC) to Mono County Public Health Division for the purpose of conducting activities necessary to expand, train, and sustain a response-ready disease intervention specialist (DIS) workforce.

These funds support our epidemiologist and nursing staff's readiness to respond to disease outbreaks, while providing resources for training and education in disease investigation and intervention.

The original grant agreement was approved on April 19, 2022, through minute order M22-074, in the amount not to exceed \$507,210, for the period of July 1, 2021 through December 31, 2025. Due to funding changes at the CDC, the overall grant agreement has been reduced by \$202,844, however funds are now available for use through 2026. These changes will not require staffing reductions as funds from other sources will be used to support staff activities.

An agreement amendment is required to implement the changes described above. The grant agreement will be amended as follows:

- Change the grant agreement term end date from the original end date of December 31, 2025 to the new end date of January 31, 2026.
- Reduce the total grant budget by removing funding amounts for Years 4 and 5, decreasing the grant by \$202,844, from \$507,210 to the new grant maximum amount payable of \$304,326.

Please don't hesitate to contact me if you have questions.

### Exhibit A NOTIFICATION LETTER

DATE: OCTOBER 6, 2023

TO: CALIFORNIA LOCAL HEALTH JURISDICTIONS

SUBJECT: EXTENSION OF DIS WORKFORCE SUPPLEMENTAL GRANT FUNDING

The California Department of Public Health (CDPH), Sexually Transmitted Diseases Control Branch (STDCB) is pleased to inform the recipients of the DIS Workforce supplemental grant funding that an extension has been announced by the Centers for Disease Control and Prevention (CDC). This extension changes the project end date from January 31, 2025, to January 31, 2026. No additional funding is available with this extension; however, any unspent funds from the first three years of funding will now be accessible through January 31, 2026.

Due to the unexpected change in the project end date, the existing DIS Workforce supplemental grant agreements will need to be amended. The grants will be amended for the following:

- Change the grant agreement term end date from the original end date of December 31, 2025 to the new end date of January 31, 2026.
- Reduce the total grant budget by removing funding amounts for Years 4 and 5 as announced in the previous notification later issued on August 21, 2023.

With this amendment, the grants will be effective from July 1, 2021 through January 31, 2026. The attached updated funding chart shows the revised grant amounts for each grantee.

Budget revisions for the periods of 01/01/24 - 01/31/25 and 02/01/25 - 01/31/26 will need to be submitted and should include the projected amount to be spent. CDC has approved expanded authority permitting the rollover of unspent funds from calendar year 2023 through the end of January 2026. Budget revision requests for this period can be submitted after December 31, 2023, but no later than April 1, 2024.

CDPH has begun the amendment process and in an effort to expedite this grant amendment through the approval process, we request that the following item be

## PS19-1901: Strengthening STD Prevention and Control for Health Departments **Disease Intervention Specialist Workforce Development**

# **Amended Grant Activities**

#### 1. Service Overview

The Grantee will use this funding to develop, expand, train, and sustain the disease intervention specialists (DIS) workforce. Funding is intended to hire personnel to address projected jurisdictional sexually transmitted disease (STD), HIV, COVID-19, and other infectious disease prevention and response needs over the performance period. Hiring priority should be given to front-line public health workforce (DIS and DIS supervisors) with secondary focus on roles that support the success of frontline DIS response and outbreak efforts.

All Grantees must adhere to the grant activities, and any subsequent revisions, along with all instructions, policy memorandums, or directives issued by CDPH/STDCB. CDPH/STDCB will make any changes and/or additions to these guidelines in writing and, whenever possible, notification of such changes shall be made 30 days prior to implementation. Any updates to the grant activities or additional guidance can be found at:

https://cdph.sharepoint.com/sites/DISWorkforceDevelopment

Key strategic targets for STD, HIV, COVID-19, and other infectious diseases prevention and control are: to increase capacity to conduct disease investigation (case investigation and contact tracing), linkage to prevention and treatment, case management and oversight, and outbreak response for STD, HIV, COVID-19, and other infectious diseases. Following required online training for DIS, initial focus should be on training and mentoring staff to become proficient in STD and HIV disease investigation and partner notification. This is to ensure the DIS develop early comfort with the more challenging and intimate disease investigation that is required for STDs and HIV, and to clear the backlog of STD DIS work at the local level. Once proficient in STD/HIV disease investigation, DIS should be trained and mentored to support disease investigation of other infectious diseases. Any non-DIS staff hired to support frontline DIS workers should also focus on STD/HIV disease investigation first. Redirection of funded staff as necessary is expected to support the need for rapid emergency infectious disease outbreak response needs.

#### 2. Service Location

The services shall be performed at applicable facilities within the Grantee's jurisdiction.

#### 3. **Service Hours**

The services shall be primarily provided Monday through Friday, from 8:00 a.m. to 5:00 p.m. and include evenings, weekends, and holidays as needed.

Re: Cooperative Agreement with the Lee Vining Public Utilities District for Infrastructure Improvements

## Strategic Plan Focus Area(s) Met

⊠ A Thriving Economy ⊠ Safe and Healthy Communities □ Mandated Function

### Discussion

At the regular meeting of the Board of Supervisors on November 5, 2024, the Board of Supervisors approved a cooperative agreement with the California Department of Transportation to guarantee funds for infrastructure improvements in Lee Vining, California.

The within agreement is between the County of Mono and the Lee Vining Public Utilities District which describes the uniqueness of the situation and defines the relationship of the parties, and their commitments, as it relates to the infrastructure work to be performed in Lee Vining, California by the California Department of Transportation.

# <u>COOPERATIVE AGREEMENT BETWEEN THE COUNTY OF MONO AND THE LEE</u> <u>VINING PUBLIC UTILITIES DISTRICT</u>

This Cooperative Agreement [hereinafter referred to as the AGREEMENT] addresses issues of mutual interest to the County of Mono ("County") and the Lee Vining Public Utilities District ("LVPUD") [also known as "the Parties"] in Mono County, California; and,

**Whereas,** the issues of mutual interest and public purpose relate to ensuring adequate infrastructure within the County of Mono; and,

**Whereas,** a unique situation has arisen where the California Department of Transportation is preparing a roads project that will require unearthing and trenching in areas adjacent to, and directly above infrastructure owed by the LVPUD, that provides services to residents of the County; and,

**Whereas,** the work to be performed by the California Department of Transportation provides an opportunity to replace aging and failing infrastructure for a cost significantly less than if the work were to be completed by LVPUD independently; and,

**Whereas,** the California Department of Transportation has agreed to complete the infrastructure improvements for LVPUD and the County ("the Project") at a greatly reduced costs, with assurances and guarantees by the County to pay for the repairs and improvements; and,

**Whereas,** the California Department of Transportation's time frame established for their work has required the County to guarantee the project, while LVPUD continues to locate funding for the project; and,

**Whereas,** LVPUD independently lacks the resources to complete the necessary repairs and improvements, and to guarantee the costs for the improvements by the California Department of Transportation; and,

**Whereas,** the Parties find and declare that there is a direct public benefit and purpose to the work to be completed by the California Department of Transportation; and,

**Whereas,** LVPUD intends this agreement to provide assurances that the costs for this project will be paid by LVPUD upon receipt of additional funding sources, including but not limited to: grant funding received, fee increases, or other reasonable measures; and,

**Therefore,** the Parties hereby resolve and agree that, in going forward; they will mutually support this project and jointly seek funding for the project, and exert their best efforts in doing so:

# I. Meetings and Consultation:

This AGREEMENT does not require formal, regular meetings but it is understood that there will be some staff time dedicated by each Party to complete the Project.

# II. Purpose:

The purpose of this agreement is to describe the commitment of the Parties to completing the Project, as well as their respective roles and responsibilities in completing the Project.

# III. Funding:

As identified in the recitals above, which are incorporated into this agreement, the California Department of Transportation is planning to complete a project adjacent to and above infrastructure owned by the LVPUD. The infrastructure owned by the LVPUD is aging and failing and will require replacement at a significant cost. However, as a result of the work to be completed by the California Department of Transportation, said agency has approached the County and LVPUD with an offer to complete the work for County residents at a greatly reduced cost. Given the proposed construction timeframe by the California Department of Transportation, the LVPUD is unable to immediately obtain funds from available sources for the project. The California Department of Transportation has, in turn, requested the County guarantee the project funding commitment. The Mono County Board of Supervisors approved the funding commitment at their regular meeting on November 5, 2024. As and for consideration of the commitment by the County, LVPUD agrees to the following:

a. LVPUD agrees to make every reasonable effort to obtain funding to pay for the Project and its costs as described in the engineers' estimate that is included in the agreement between the County and the California Department of Transportation and is attached to this AGREEMENT as Exhibit A. This includes, but is not limited to both analyzing the feasibility of increasing ratepayer fees – raising rates, applying for grant funding, and/or using any reserves and or other funding available to LVPUD, including loans, bonds, or other public debt. The County agrees, as necessary, to apply for grants that in their sole discretion they feel may be beneficial to the financing of the project. The Parties agree to work cooperatively on funding applications, as necessary.

# IV. Maintenance, Operation and Ownership

LVPUD agrees to maintain, to a reasonable professional standard, the improvements constructed by the California Department of Transportation that are the corpus of this Project. Upon satisfying the guarantee of the County, as set forth in Paragraph III. above, LVPUD will accept immediate transfer, ownership, and operation of the infrastructure installed as a result of this Project.

# V. Dispute Resolution

The Parties agree to utilize every means necessary to resolve disputes through mutually respectful dialogue to avoid polarization, resentment, and tension. This includes, but does not require, the assistance of professional mediators. Each Party reserves its right to pursue any and all remedies available under the law in the event the other party fails to comply with any legal obligation.

# VI. Defense and Indemnification

LVPUD shall defend with counsel acceptable to County, indemnify, and hold harmless County, its agents, officers, and employees from and against all claims, damages, losses, judgments, liabilities, expenses, and other costs, including litigation costs and attorney's fees, arising out of, resulting from or in connection with, the performance of this Agreement by LVPUD, or LVPUD's agents, officers, or employees. LVPUD's obligation to defend, indemnify, and hold County, its agents, officers, and employees harmless applies to any actual or alleged personal injury, death, damage or destruction to tangible or intangible property, including the loss of use. LVPUD's obligation under this Paragraph extends to any claim, damage, loss, liability, expense, or other costs that are caused in whole or in part by any act or omission of LVPUD, its agents, employees, supplier, or anyone directly or indirectly employed by any of them, or anyone for whose acts or omissions any of them may be liable. LVPUD's obligation to defend, indemnify, and hold County, its agents, officers, and employees harmless under the provisions of this Paragraph is not limited to, or restricted by, any requirement in this Agreement for LVPUD to procure and maintain a policy of insurance and shall survive any termination or expiration of this Agreement

# VII. INSURANCE

LVPUD shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder and the results of that work by the LVPUD, his agents, representatives, employees or subcontractors.

A. <u>Minimum Scope and Limit of Insurance</u>. Coverage shall be at least as broad as (please select all applicable):

 $\bigcirc$  Commercial General Liability (CGL): Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than \$1,000,000 per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.

Automobile Liability: ISO Form Number CA 00 01 covering any auto (Code 1), or if LVPUD has no owned autos, hired, (Code 8) and non-owned autos (Code 9), with limit no less than \$1,000,000 per accident for bodily injury and property damage.

Workers' Compensation: as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limit of no less than \$1,000,000 per accident for bodily injury or disease.

Worker's Compensation Exempt: LVPUD is exempt from obtaining Workers' Compensation insurance because LVPUD has no employees. LVPUD shall notify County and provide proof of Workers' Compensation insurance to County within 10 days if an employee is hired. Such Workers' Compensation policy shall be endorsed with a waiver of subrogation in favor of County for all work performed by LVPUD, its employees, agents, and subcontractors. LVPUD agrees to defend and indemnify County in case of claims arising from LVPUD's failure to provide Workers' Compensation insurance for employees, agents and subcontractors, as required by law.

Professional Liability (Errors and Omissions): Insurance appropriate to the LVPUD's profession, with limit no less than \$1,000,000 per occurrence or claim, \$1,000,000 aggregate.

LVPUDs' Pollution Legal Liability and/or Asbestos Legal Liability and/or Errors and Omissions (if project involves environmental hazards) with limits no less than \$1,000,000 per occurrence or claim, and \$1,000,000 policy aggregate.

If the LVPUD maintains broader coverage and/or higher limits than the minimums shown above, the County requires and shall be entitled to the broader coverage and/or the higher limits maintained by the LVPUD. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the County.

B. <u>Other Insurance Provisions</u>. The insurance policies are to contain, or be endorsed to contain, the following provisions:

- (1) Additional Insured Status: The County, its officers, officials, employees, and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the LVPUD including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the LVPUD's insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of both CG 20 10, CG 20 26, CG 20 33, or CG 20 38; and CG 20 37 if a later edition is used).
- (2) **Primary Coverage:** For any claims related to this contract, <u>the LVPUD's insurance</u> <u>coverage shall be primary and non-contributory</u> and at least as broad as ISO CG 20

01 04 13 as respects the County, its officers, officials, employees, and volunteers. Any insurance or self-insurance maintained by the County, its officers, officials, employees, or volunteers shall be excess of the LVPUD's insurance and shall not contribute with it. This requirement shall also apply to any Excess or Umbrella liability policies.

- (3) **Umbrella or Excess Policy:** The LVPUD may use Umbrella or Excess Policies to provide the liability limits as required in this agreement. This form of insurance will be acceptable provided that all of the Primary and Umbrella or Excess Policies shall provide all of the insurance coverages herein required, including, but not limited to, primary and non-contributory, additional insured, Self-Insured Retentions (SIRs), indemnity, and defense requirements. The Umbrella or Excess policies shall be provided on a true "following form" or broader coverage basis, with coverage at least as broad as provided on the underlying Commercial General Liability insurance. No insurance policies maintained by the Additional Insureds, whether primary or excess, and which also apply to a loss covered hereunder, shall be called upon to contribute to a loss until the LVPUD's primary and excess liability policies are exhausted.
- (4) **Notice of Cancellation**: Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to the County.
- (5) **Waiver of Subrogation**: LVPUD hereby grants to County a waiver of any right to subrogation which any insurer of said LVPUD may acquire against the County by virtue of the payment of any loss under such insurance. LVPUD agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the County has received a waiver of subrogation endorsement from the insurer.
- (6) Self-Insured Retentions: Self-insured retentions must be declared to and approved by the County. The County may require the LVPUD to purchase coverage with a lower retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or County. The CGL and any policies, including Excess liability policies, may not be subject to a self-insured retention (SIR) or deductible that exceeds \$100,000 unless approved in writing by County. Any and all deductibles and SIRs shall be the sole responsibility of LVPUD or subcontractor who procured such insurance and shall not apply to the Indemnified Additional Insured Parties. County may deduct from any amounts otherwise due LVPUD to fund the SIR/deductible. Policies shall NOT contain any self-insured retention (SIR) provision that limits the satisfaction of the SIR to the Named. The policy must also provide that Defense costs, including the Allocated Loss Adjustment Expenses, will satisfy the SIR or deductible. County reserves the right to obtain a copy of any policies and endorsements for verification.
- (7) Acceptability of Insurers: Insurance is to be placed with insurers authorized to conduct business in the state with a current A.M. Best's rating of no less than A:VII, unless otherwise acceptable to the County.

- (8) **Claims Made Policies**: If any of the required policies provide claims-made coverage:
  - a. The Retroactive Date must be shown, and must be before the date of the contract or the beginning of contract work.
  - b. Insurance must be maintained, and evidence of insurance must be provided for at least five (5) years after completion of the contract of work.
  - c. If coverage is canceled or non-renewed, and not replaced with another claims-made policy form with a Retroactive Date prior to the contract effective date, the LVPUD must purchase "extended reporting" coverage for a minimum of five (5) years after completion of work.
- (9) Verification of Coverage: LVPUD shall furnish the County with original certificates and amendatory endorsements or copies of the applicable policy language effecting coverage required by this clause and a copy of the Declarations and Endorsements Pages of the CGL and any Excess policies listing all policy endorsements. All certificates and endorsements and copies of the Declarations & Endorsements pages are to be received and approved by the County before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the LVPUD's obligation to provide them. The County reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time. County reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.
- (10) **Special Risks or Circumstances**: County reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

# VIII. Terms of Agreement

Term of this AGREEMENT is through the date in which the County is made whole for their guarantee of the Project, which shall occur before the completion of the infrastructure improvements by the California Department of Transportation.

## IX. Party and Third-Party Rights

Nothing in this AGREEMENT is intended to create, nor shall anything in it be construed as creating, any rights in any third-party entity or person that would not exist independently of this AGREEMENT.

# X. Severability

If any portion of this Agreement or application thereof to any person or circumstance shall be declared invalid by a court of competent jurisdiction, or if it is found in contravention of any federal, state, or county statute, ordinance, or regulation, then the remaining provisions of this Agreement, or the application thereof, shall not be invalidated thereby, and shall remain in full force and effect to the extent that the provisions of this Agreement are severable.

# XI. Entire Agreement

This Agreement contains the entire agreement of the parties, and no representations, inducements, promises, or agreements otherwise between the Parties not embodied herein or incorporated herein by reference, shall be of any force or effect. Further, no term or provision hereof may be changed, waived, discharged, or terminated, unless executed in writing by the Parties hereto.

# **XII.** Counterparts

This Agreement may be executed in two (2) or more counterparts (including by electronic transmission), each of which shall constitute an original, and all of which taken together shall constitute one and the same instrument. For purposes of this Agreement, a photocopy, facsimile, .pdf, or electronically scanned signatures, including but not limited to Docusign or similar service, shall be deemed as valid and as enforceable as an original.

A strong AR transports an amount of water vapor roughly equivalent to 7.5–15 times the average flow of water at the mouth of the Mississippi River.

ARs are a primary feature in the entire global water cycle and are tied closely to both water supply and flood risks, particularly in the Western U.S.

> On average, about 30-50% of annual precipitation on the West Coast occurs in just a few AR events and contributes to the water supply — and flooding risk.

> > ARs move with the weather and are present somewhere on Earth at any given time.

ARs are approximately 250-375 miles wide on average.

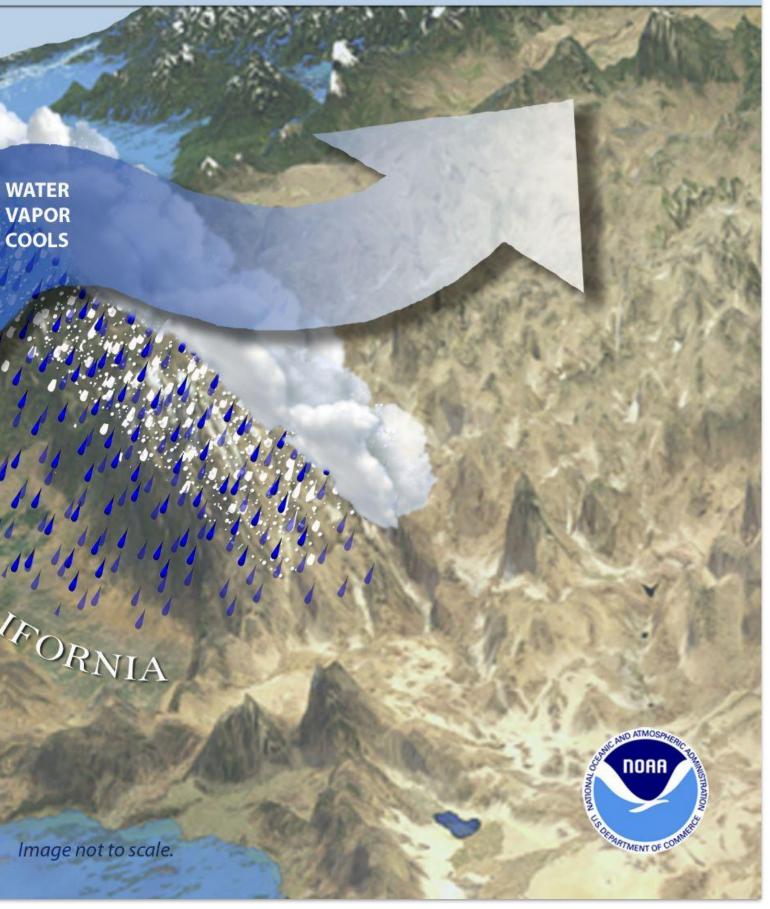

Scientists' improved understanding of ARs has come from roughly a decade of scientific studies that use observations from satellites, radar and aircraft as well as the latest numerical weather models. More studies are underway, including a 2015 scientific mission that added data from instruments aboard a NOAA ship.

 High temperatures more typical of mid-August will be in place through Thursday with low 90s expected for W.Nevada valleys. Reno has a >80% chance of breaking its record high temperature of 90° this afternoon.

 Gusty southwesterly winds expected across western NV on Friday, with gusts 30-40 mph mainly north of US-50. This will yield elevated to critical fire weather concerns, in addition to choppy lakes and areas of blowing dust.

 It won't be quite as warm toward the weekend, but highs still run 5-10° above average. We'll continue our dry pattern with no prospects for precipitation into early next week. Highs could return closer to average by the latter

# **Bottom Line - Expect The Unexpected**

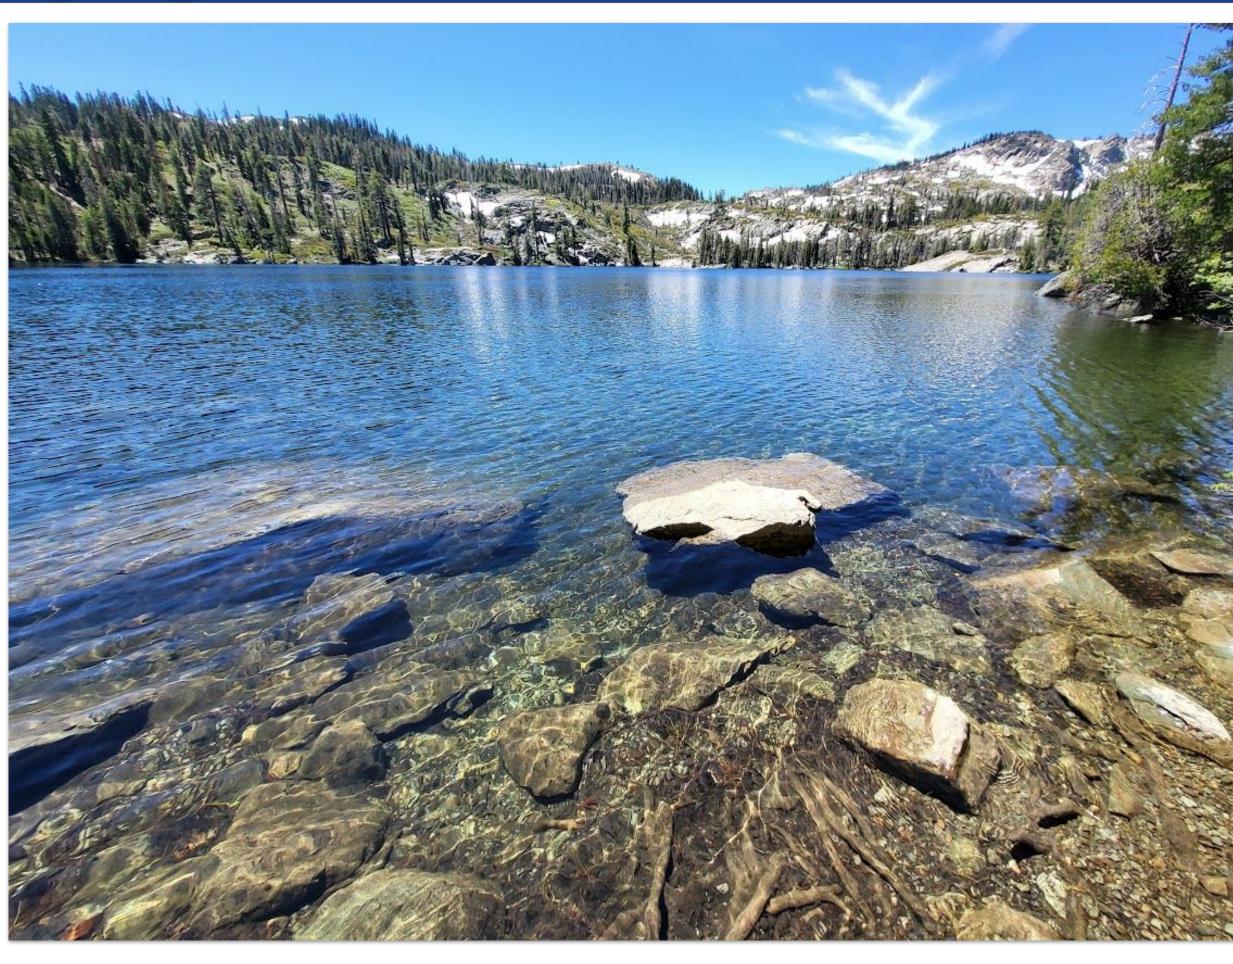

- We have had both incredibly wet and incredibly dry La Niña Winters, as well as unremarkable ones.
  - Larger scale climate signals such as ENSO haven't behaved as "typically" expected in more recent Ο years
- Wet or dry episodes are going to be dependent on location and strength of high pressure in the northern Pacific Ocean.
- Fall precipitation onset, while not everything, is important to set the stage for spring runoff. Late onset = drier soils and lessened runoff.
- We can still have: big snow storms, floods, cold spells, inside sliders, and wind storms even in a "drier than normal winter".
- Fires will continue to be a concern until we get a season-ending\* precipitation event

- Seasonal outlooks DO NOT capture how wet or dry a winter will be
  - The state of the science is just not there yet and seasonal predictability is limited, esp early into the season
- Winters are defined by individual storms that occur throughout the season, and often the number of atmospheric river events we see at our latitude.
  - These storms are usually apparent in the 7-14 day forecast window and will be highlighted in partner emails and the Forecast Discussion
  - Any single storm can produce impacts and flooding , whether it be localized and/or on a regional scale.

Gerald A. Frank, CGIP Assistant Finance Director Treasurer-Tax Collector

**Date:** November 12, 2024

To: Honorable Board of Supervisors

From: Finance: Janet Dutcher

Subject:

Purchase Agreement and Resolution authorizing the purchase and sale of tax defaulted properties.

#### **Discussion:**

When secure property taxes become delinquent for five years or more, the Mono County Tax Collector can sell these properties at a public auction as tax defaulted under Chapter 7 of the Revenue and Tax Code (RTC). On August 13, 2024, and under the appropriate RTC provisions, the Board of Supervisors approved Resolution R24-080, authorizing the Tax Collector to conduct a sale of tax-defaulted property, and the list of properties included the following:

| APN             | Address                                  | Purchase Amount |
|-----------------|--|-----------------|
| 008-093-032-000 | 56 Kirkwood Street, Bridgeport, CA 93517 | \$ 7,740.00     |

On October 1, 2024, the Mono County Administrative Officer timely notified the Tax Collector of its objection to the Chapter 7 sale of the above property at the scheduled public auction accompanied by an application to purchase the property. This effectively removed the property from the pending public sale, which was scheduled to begin on November 6, 2024, allowing the County to negotiate with the Tax Collector to purchase this property directly.

The Tax Collector prepared a purchase agreement, with review and advice from County Counsel, for the negotiated purchase price of \$7,993.80, which is the total amount of unpaid taxes, together with penalties, interest, fees, and document transfer tax. The County intends to use this property for affordable housing, a qualifying public purpose essential for qualifying the purchase under Chapter 8. To effect the purchase, RTC 3795 and RTC 37494.3 require a Board of Supervisors resolution authorizing the purchase along with an executed purchase agreement. This agenda item aims to secure approval of the resolution and the purchase and sale agreement. The final signatory to the transaction is the California State Controller, whose authorization we cannot obtain until after the Board approves the resolution and agreement.

#### CHAPTER 8 TAX SALE AGREEMENT

This Chapter 8 Tax Sale Agreement (this "Agreement") is entered as of \_\_\_\_\_\_, 2024 (the "Execution Date") between the County of Mono, a political subdivision of the State of California ("Purchaser") and the Mono County Treasurer-Tax Collector, a public official ("Seller"), with respect to the following facts:

- A. That certain property (the "Property") located in unincorporated Mono County commonly known as 56 Kirkwood Street in Bridgeport, California, having an Assessor's Parcel Number of 008-093-032-000, and more particularly described in **Exhibit 1** hereto, has been tax defaulted since 2019. The total amount of unpaid taxes, together with penalties, interest, and fees due therefor, is Seven Thousand Nine Hundred Eighty-Five Dollars and No Cents (\$7,985.00). This amount, plus document transfer tax of Eight Dollars and Eighty Cents, for a total amount of Seven Thousand Nine Hundred Ninety-Three Dollars and Eighty Cents (\$7,993.80) is referred to herein as the "Purchase Price."
- B. Prior to October 1, 2024, Seller intended to auction the Property in a tax sale pursuant to Chapter 7 of Part 6 of Division 1 of the Revenue and Taxation Code. On October 1, 2024, Purchaser objected to the Chapter 7 sale of the Property and applied instead to purchase the Property pursuant to Chapter 8 of Part 6 of Division 1 of the Revenue and Taxation Code.
- C. Of even date herewith, Purchaser's Board of Supervisors has adopted a resolution authorizing the purchase of the Property by Purchaser and the sale thereof by Seller, in consideration of the payment by Purchaser of the Purchase Price, as further set forth herein. Said purchase shall be contingent upon approval by the State Controller. Purchaser intends to use the Property for low-income affordable housing purposes.
- D. The consummation of the transactions herein contemplated are exempt from review under the California Environmental Quality Act ("CEQA") pursuant to CEQA Guidelines Sections 15061(b)(3) (Common Sense Exemption), 15301 (Existing Facilities), 15302 (Replacement or Reconstruction), and 15303 (New Construction or Conversion of Small Structures). CEQA does not require a public agency to speculate about the potential indirect environmental effects of a project, and the specific ultimate use of the Property has not yet been determined by Purchaser. Such use is expected to involve only the use or rehabilitation of existing facilities and/or the construction or conversion of

small structures, and none of the circumstances stated in CEQA Guidelines Section 15300.2 applies.

NOW, THEREFORE, in consideration of the foregoing, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

- 1. The foregoing recitals are true and correct and are incorporated herein by this reference.
- 2. Following approval of this Agreement by the State Controller, notice of this agreement, which shall contain the information set forth in Revenue and Taxation Code Section 3797, shall be mailed as set forth in Revenue and Taxation Code Section 3799. Not sooner than twenty-five (25) days after such mailing, but not later than thirty-nine (39) days after such mailing, the notice shall be published or posted pursuant to Revenue and Taxation Code Section 3798. The cost of such mailing and publication shall be paid by Purchaser, and an affidavit shall be provided to Seller as proof of mailing and publication or posting, as required by Revenue and Taxation Code Section 3801. At 5:01 p.m. on the first business day that is at least the twenty-first (21<sup>st</sup>) day after publication or posting (the "Effective Date"), this Agreement shall become effective.
- 3. Prior to the Effective Date, Purchaser shall pay to Seller the Purchase Price plus any other costs of sale as reasonably calculated by Seller. Purchaser shall also be responsible for payment in full of the Fiscal Year 2024-2025 property taxes for the Property due and owing through the Effective Date. On the first business day following the Effective Date, Seller shall execute and record deeds to the Property naming Purchaser as the grantee thereof.
- 4. Purchaser agrees and understands that it is taking the Property <u>AS-IS</u>, <u>WITH ALL FAULTS</u>, and that <u>SELLER MAKES NO REPRESENTATION</u> <u>OR WARRANTY ABOUT THE PROPERTY OF ANY KIND OR NATURE</u> <u>WHATSOEVER</u>. In particular, and without limiting the generality of the foregoing, Seller does not warrant title to the Property or make any representations concerning the title. Additionally, Seller makes no representation concerning the physical condition of the Property and Purchaser acknowledges that it is not relying upon any statements or representations of Seller concerning the Property. Purchaser, and not Seller, shall be solely responsible for removal of any liens or adverse claims against the Property of any kind or nature whatsoever. Purchaser is also solely

responsible for verifying the legal descriptions of the Property attached hereto and for ascertaining any and all conditions of title and physical conditions of the Property.

- 5. The Property may contain hazardous wastes, toxic substances, or other substances regulated by federal, state, and local agencies. <u>SELLER IN NO WAY WHATSOEVER ASSUMES ANY RESPONSIBILITY, IMPLIED OR OTHERWISE, AND MAKES NO REPRESENTATIONS THAT THE PROPERTY COMPLIES WITH FEDERAL, STATE, OR LOCAL LAWS GOVERNING SUCH SUBSTANCES.</u> Seller in no way assumes any responsibility, implied or otherwise, for any costs or liability of any kind imposed upon or voluntarily assumed by Purchaser or any other owner to remediate, clean up, or otherwise bring into compliance according to federal, state, or local environmental laws the Property purchased.
- 6. Seller and Purchaser agree that under 42 U.S.C. § 9601(20)(D), the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) expressly excludes local and state governments from clean up liability for properties they acquire as a result of tax delinquencies. Notwithstanding this provision, Purchaser shall defend, indemnify, and hold harmless Seller, its officers, employees, agents, and assigns, from and against any and all claims, actions, liabilities, losses, damages, penalties, liens, fines, and costs, including reasonable attorneys' fees and costs, of any kind or nature whatsoever, arising out of or resulting from the performance of this Agreement, regardless of whether caused in part by a party indemnified hereunder, including but not limited to allegations that Seller and/or Seller's officers, employees, agents, or assigns are liable for costs or other charges related to the remediation, clean up, or other work necessary to bring the Property into compliance with federal, state, or local environmental laws.
- 7. Releases of liability, indemnification and defense obligations, and disclaimer of any warranty set forth in this Agreement shall be construed as broadly as possible under applicable law, it being agreed and understood that Seller has acquired an interest in the Property merely as a public officer with a ministerial obligation to collect taxes due and owing on the Property, and not as an investor, speculator, or similarly interested party. Insofar as this Agreement contains releases of liability by Seller, Purchaser expressly and voluntarily waives and disclaims the provisions of Civil Code Section 1542, which states that:

A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS THAT THE CREDITOR OR RELEASING PARTY DOES NOT KNOW OR SUSPECT TO EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE AND THAT, IF KNOWN BY HIM OR HER, WOULD HAVE MATERIALLY AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR OR RELEASED PARTY.

Purchaser's Initials

- 8. If the Property is redeemed prior to the Effective Date, then this Agreement shall be null and void.
- 9. This Agreement shall become null and void, and the right of redemption shall be restored, if Purchaser fails to consummate the transactions contemplated hereby prior to the Effective Date. Purchaser shall, nonetheless, remain liable for payment of all costs of sale reasonably calculated by Seller.
- 10. This Agreement constitutes the entire agreement of the parties with respect to the subject matter hereof.
- 11. There are no third-party intended beneficiaries of this Agreement.
- 12. This Agreement shall be construed according to California law, notwithstanding conflicts of law principles. Venue for any dispute arising from this Agreement shall be proper in Mono County, notwithstanding Code of Civil Procedure Section 394, or any other law.
- 13. This Agreement shall not be construed against either party, except that any disclaimer of warranty, provision for indemnification or defense, and release of liability contained herein shall be construed broadly, as set forth in Section 7, above.
- 14. No provision of this Agreement shall be amended except in a writing signed by both parties. No provision of this Agreement may be waived except in writing, notwithstanding the passage of time, and no waiver shall be deemed a continuing waiver. This Agreement is not subject to assignment by either party.

15. This Agreement may be executed in counterparts, each of which shall be deemed an original. This Agreement may be executed electronically, and an electronic copy or other facsimile of this Agreement shall be treated as an original. The signatories of this Agreement represent and warrant their authority to bind their respective parties.

The County's ERP Replacement Project team will provide an update about recent activities, including the project's anticipated timeline, budget, and results of the recent business analysis meetings held in June Lake October 15 to 17.

#### **RECOMMENDED ACTION:**

None. Receive an update and provide any desired feedback to the team.

#### **FISCAL IMPACT:**

The project is currently budgeted at \$100,000 for fiscal year 2024-25. The contract with the Government Finance Officers' Association (GFOA), our advisory consultant, is \$385,500, of which \$8,000 has been paid and another \$50,000 is in process for the "as-is" analysis. We anticipate spending \$193,000 by the end of this fiscal year. Additional costs include existing County employees who have contributed hours towards this project instead of their regularly assigned duties. We expect to incur \$1 million or more additional project costs before the project is complete in 2027 or 2028. A more concise amount will not be known until after software vendor proposals are received later this fiscal year.

RE: Enterprise Resource Planning (ERP) Replacement Project - Update

#### Background

An Enterprise Resource Planning (ERP) system comprises a set of integrated software modules featuring one centralized database that uses information communication technology to account for every dollar we receive and how we spend it. The intent is to create efficiencies and effectiveness by reengineering and automating our business processes, eliminating redundant third-party applications, capitalizing on data sharing, and retrieving information in a real-time environment that facilitates good decision-making. It brings our business processes and routine financial tasks under "one umbrella."

Examples of integrated modules include:

- Accounting
- Project Accounting
- Human Resources
- Cash Management
- Cost Accounting
- Receivables

- Procurement
- Risk Management
- Payroll
- Investing
- Work Orders
- Reporting

- Capital Assets
- Planning
- Budgeting
- Permitting & Licensing
- Time Tracking
  - Performance Management

The key benefits of a well-functioning ERP System include:

- Standardization and automation of business processes
- Integrative administrative systems to enhance coherence and performance
- Enhanced data sharing
- Information in real-time
- Elimination of redundant third-party systems (source of budget savings!)

#### Mono County's Current System

In January 2015, the County entered into an amended agreement with Harris Systems USA, Inc., dba Harris ERP, formerly Systems Consultant, Inc., formerly Government e-Management Solutions Inc.) for migrating from a specific version of Government e-Management Solutions, Inc. (GEMS) financial

accounting software to implement the vendor's newer Innoprise ERP, consisting of the following modules:

- Financial (implemented and currently being used)
- Payroll (implemented and currently being used)
- Cash Receipting (implemented and currently being used)
- Human Resources (abandoned)
- Tax (abandoned)
- Community Development (abandoned)
- Work Order Cost Accounting (abandoned)

Of the seven modules purchased by Mono County from Harris, only three, the core three that comprise the County's current accounting system, were implemented, making the upgrade from GEMS to Harris's flagship ERP system a failed ERP implementation. As a result, Mono County did not benefit from the critical benefits of a well-functioning ERP system: sharing one data source, eliminating redundancies, and efficiencies derived from integrating key processes using one system. Harris has abandoned Innoprise in recent years and no longer supports this software. Its key ERP application is CitySuite, for which the County is still waiting to receive a scheduling response from Harris. The ERP market has grown with many more modern ERP vendors, allowing for greater automation, system integration, and efficiency. This is an opportunity for Mono County to make meaningful business process improvements by replacing our current ERP system, which Harris no longer supports.

Additionally, the County incurs costs for many third-party software applications, which have the potential to either eliminate them or build custom interfaces that eliminate double entry by staff. Some, but not all, of these applications include:

- OpenGov financial reporting, transparency portal, budgeting, workforce costing
- Clarti Cloud permitting and licensing
- CAMS roads, public works, and facility cost accounting and work order management
- In Time sheriff, jail, and court bailiff scheduling and time reporting
- Accela EnvirionConnect environmental health for tracking activities and time against facilities (restaurants, businesses, cupas, water systems, etc.) Also used by Public Health fiscal staff for accounts receivable activities (invoicing, payments, notices, permit printing, fee tracking, etc.)
- Paperless Knowledge (Maxime) public health staff for time study tracking. Used by public health fiscal staff for cost accounting purposes, primarily grants.
- Fiscal Experts (Time Study Buddy) social services for time study tracking. This specialized program tracks and updates state program codes so the department can bill for state reimbursements.
- SmartCare used by Behavioral Health for medi-cal billing. It includes time tracking by staff.
- Quickbase internally developed applications that IT staff use for timekeeping, rate setting, inventory management, budgeting, and financial monitoring.
- Target Solutions (Vector Solutions) used by paramedics for timekeeping, scheduling, training, and rig checking. This application is specialized for emergency medical services operation
- NeoGov HR recruiting and personnel management
- Megabyte property tax administration, billing, and collection

The above list is not complete. However, a new ERP system may eliminate these systems by integrating their functionality into the new system or may automate common data elements by eliminating manual double entry by staff. Additionally, finance staff identified specific failings with the current system, and these failures serve to establish minimum objectives for implementing a new system. These include a lack of time reporting by activity or project, redundancy of multiple applications duplicating functionalities a new ERP system can provide, lack of integration of data and making integrated reporting impossible, the non-responsiveness of Harris and their elimination of support for our current application, and a vulnerable IT server needing replacement to mitigate the risk of malicious intrusion.

Implementing a new ERP system is a complex and risky endeavor. The County's implementation of its current ERP system is an example of the opportunities lost when implementations fail – a failure to fully benefit from the greater efficiencies of integrated systems and data sharing. The existing literature identifies several risk factors associated with what causes a failed ERP implementation, including:

- Not considering the requirement to change our policies and procedures. Many organizations create workarounds in the new ERP system so that current processes remain the same.
- There is a high risk of disrupting existing transactions and services. Planning is essential where the new system is planned using a dedicated team and it is implemented in parallel with the current system.
- Employees and an organization that is resistant to change. Change management is an essential skill set that needs to be added to the ERP project team.
- The learning curve can be steep for employees transitioning from one system to another.
- Selecting a product that does not meet our needs or only partially satisfies existing requirements results in maintaining existing third-party software and a missed opportunity to achieve efficiencies.
- Many organizations fail because they are not prepared to change. Change management requires identifying roles, redefining business processes, training, and communication.

Because of the high risk and costs associated with ERP implementation failure, staff sought to duplicate a model many other counties in California used recently to identify and implement their new ERP software. That model is to engage with a consultant contracted to provide the following scope of work:

- Develop and document existing (as is) and proposed (to be) functional data requirements, including business process workflow, for all County departments utilizing the new ERP software.
- Prepare a Request for Proposal (RFP) that the County will issue for new ERP software and implementation services.
- Lead the County through the ERP software selection process.
- Participate in contract negotiations with the selected ERP software vendor.
- Act as the County's project manager, guiding the County in implementing the selected ERP software package.

In June 2024, the County entered into a contract with the Government Finance Officers Association (GFOA) for them to function as the County's ERP implementation consultant, including conducting

current business process analysis and identifying ways in which Mono County could improve and enhance its processes via new system requirements.

GFOA is a non-profit association representing public finance officials throughout the United States and Canada. The Association's more than 23,500 members are federal, State/provincial, and local finance officials deeply involved in planning, financing, and implementing thousands of government operations in each jurisdiction. GFOA's proposal included a fixed all-in, not-to-exceed fee and demonstrated extensive experience implementing ERP Systems for 18 counties in California. This is a multi-year contract, expected to span two to five years, with a not to exceed cost of \$385,500.

Below is a summary of the services anticipated from GFOA.

Phase 1 – Business Process Improvement / Readiness

- Set up a steering committee as a governance structure for the replacement project.
- Identify potential business process changes.
- Prepare a needs assessment identifying gaps to address or identify the County's improvement options and help establish a future vision for administrative processes.
- Develop and issue RFP to software vendors.

Phase 2 – ERP Vendor Selection

- Evaluate ERP vendor proposals
- Select ERP vendor
- Negotiate Contract

Phase 3 – Implementation

- Provide project oversight with selected ERP vendor
- Conduct post-project assessments, evaluating the County's success at meeting project goals and the effectiveness of the change process.

#### Initial On-Site Business Process Analysis Meetings

On-site business process analysis meetings were held at the June Lake Community Center on October 15 to 17 to discuss Mono County's business processes, identify the list of systems in use, note existing policies and procedures, and create process maps. There was a good turnout and representation of County departments. The graphics below show the functional scope of these meetings.

At this early stage, staff can identify a few immediate areas of opportunity for improvement. Staff will discuss these in further detail during the update. GFOA plans to return to Mono County to meet individually with public works and the sheriff's office, who could not attend most of the business analysis meetings. The next major milestone includes discussing what Mono County anticipates its future state system to comprise. We expect this to take place in January and February, 2025.

The Finance Director will conclude the update by discussing the project's budget. Currently, there is an appropriation of \$100,000. The contract for GFOA is \$385,500, and the contract with the new software

vendor and additional staffing resources will likely exceed \$1 million. There is a need to earmark as much as \$1.3 million or more to complete this project by December 2027 or 2028.

- Date: November 12, 2024
- To: Honorable Chair and Members of the Board of Supervisors
- From: Paul Roten, Director of Public Works
- **Re:** Capital Improvement Plan Workshop

#### History:

CIP stands for Capital Improvement Plan, which lays out the financing, location, and timing for capital improvement projects over several years. A capital improvement plan typically consists of one or more capital improvement projects, which are financed through a capital budget. The capital budget is funded through numerous grant programs and the general fund.

#### Discussion:

#### 1. Introduction

The 5-Year CIP serves as a strategic planning tool for Mono County, directing the development, maintenance, and acquisition of County infrastructure. Covering the period from fiscal year 2025, the CIP sets forth goals to:

- Improve public safety, mobility, and quality of life.
- Support local economic growth.
- Coordinate resources effectively across County departments.

The CIP does not allocate funds but provides guidance on project prioritization, funding sources, and potential budget impacts, including maintenance costs and staffing requirements.

#### 2. Project Categories

Projects are divided into categories by department and type, including the following primary divisions:

- Public Works: Encompassing airports, fleet, facilities, parks, storm drains, streetscapes, and solid waste.
- **County Departments:** Ranging from emergency services, IT, housing, and the Sheriff's Office, each department has a designated section for capital improvements, with projects classified to support strategic and operational needs.

This categorization ensures that infrastructure needs are addressed comprehensively and systematically across all County services.

#### 3. Development of the Capital Improvement Plan

The CIP process follows a structured approach for project identification, prioritization, and alignment with County planning documents and budget cycles:

- New projects are identified and existing projects reviewed.
- Input is gathered from departments and the Board of Supervisors to draft a prioritized plan.
- The Planning Commission reviews the CIP for General Plan alignment before final approval by the Board of Supervisors.

The goal is to create a dynamic and adaptable plan that aligns with changing funding sources, community needs, and County priorities.

#### 4. Recent Project Completion Highlights

The CIP highlights several significant projects completed over the past years, which have improved infrastructure and public services, such as:

- Eastside Lane Bike Lane Rehabilitation (2024) Improved bike lanes for increased safety.
- Mono County Public Works Standards (2024) Updated standards to replace the 1982 guidelines.
- Bridgeport Courthouse Restoration (2023) Exterior restoration to historical specifications.
- Benton Crossing and Northshore Drive Emergency Repairs (2023) Critical repairs in response to storm damage.

These completed projects exemplify the County's commitment to maintaining high standards for infrastructure.

#### 5. Funding Sources

Funding for CIP projects comes from a variety of sources, including:

- State and Federal Programs (e.g., ATP, CDAA, FLAP)
- Local Funds (e.g., General Fund, Motor Pool)
- Specialized Programs (e.g., HSIP, RSTP, SB1)

The CIP includes a comprehensive list of these sources to ensure alignment with financial planning and budget forecasts. Identifying funding gaps early on will help facilitate decisions regarding surplus allocations and resource adjustments.

#### 6. 5-Year CIP Outlook

The CIP serves as a strategic guide for budget planning and resource allocation. It assists the Board in identifying potential budget surpluses and adjusting project funding accordingly. The CIP also provides transparency to the public and stakeholders, promoting informed discussions about County infrastructure priorities.

#### 7. Key Projects for 2025

The CIP for 2025 includes a range of projects designed to address the immediate infrastructure needs of Mono County. These projects focus on improving safety, accessibility, and efficiency across County facilities and transportation networks. Highlights of some key projects planned for 2025 include:

- Airport Improvements (Bryant Field and Lee Vining Airport): Upgrades to critical airport infrastructure at both Bryant Field and Lee Vining Airport to support safer operations and increased capacity for emergency services.
- **Public Works Fleet and Equipment Upgrades**: Replacement of aging vehicles and essential equipment to improve reliability and efficiency for County services, including snow removal and emergency response capabilities.
- **Storm Drainage Enhancements**: Projects to improve drainage infrastructure, including new culverts, inlets, and basins to mitigate flood risks in areas prone to stormwater challenges.
- Bridgeport Jail Construction Phase 1: Initiating the development of a new adult detention facility, addressing capacity and safety requirements for the Sheriff's Office and reducing reliance on external detention facilities.
- **Community Parks and Recreation Facilities**: Upgrades and renovations to local parks, including new playground equipment, trail maintenance, and water-bottle filling stations. These enhancements are designed to provide safe and accessible recreational spaces for residents and visitors.
- **Road Safety Projects**: Several projects aim to improve road conditions and safety, including resurfacing work, traffic signage upgrades, and striping of right-edge lanes throughout the County, focusing on high-traffic and vulnerable areas.

- Housing Initiatives: Capital projects to advance the County's community housing goals, including infrastructure improvements that support affordable housing developments and other long-term housing solutions for Mono County residents.
- **Civic Center Drainage Upgrades**: Continued work on drainage improvements at the Civic Center to protect the building structure, improve safety, and prevent future water damage to the facility.

These 2025 projects are part of a broader plan to sustain and enhance public infrastructure while balancing current needs with anticipated future growth. They reflect the County's commitment to delivering high-quality services that support community wellbeing and resilience.

With these 2025 projects in the pipeline, the CIP aims to set Mono County on a path toward greater sustainability, safety, and quality of life.

#### Conclusion

The Mono County 2025 Capital Improvement Plan is an essential guide for managing and prioritizing capital projects over the next five years. It provides a framework for aligning County resources with the infrastructure needs of our communities, while also supporting strategic planning and budget alignment. This draft is submitted for review and feedback by the Board of Supervisors to finalize the plan in alignment with the County's long-term goals.

The next step of this process is to take this CIP to the Planning Commission where we will ask for confirmation that this CIP conforms to the Mono County General Plan. Upon Planning Commission confirmation, we will bring this back to the Board for adoption.

Mono County Policy APPENDIX E

### Draft Capital Improvement Plan (CIP) Policy

In accordance with the Budget & Financial Policy there will be an annual CIP workshop with the Mono County Board to consider and prioritize projects for the following year. After the Board workshop the CIP will be taken to the Planning Agency to ensure compliance with the Mono County General Plan and then returned to the Mono County Board of Supervisors for approval. This CIP will prioritize projects and contributions from the General Fund, as well as grants and state/federal allocations for the improvement of county infrastructure and facilities.

This policy provides the framework for development of a 5-year plan and includes the following elements:

- 1. Project identification/location What are the project details and location
- 2. Timing When over the course of the next five years could the project be implemented
- 3. Funding What funding is available and strategies to close funding gap
- 4. Scope What should be included
- 5. Participants Who is involved and the timing of involvement.
- 6. Prioritization Guidelines for scoring projects for integration in budget cycle

A capital improvement plan (CIP) is a multi-year plan that describes the capital and /or significant maintenance projects Mono County is in need of and intends to undertake in the next five years. These projects include: acquisition or construction of facilities, infrastructure, information technology and major capital assets. The Capital Improvement Plan forecasts spending and identifies the associated funding sources essential to paying for these projects, both of which are essential to the Mono County budget. The five key elements of the Capital Improvement Plan are described below:

#### Project Identifiation

- Annually there will be a call out from Public Works to County Departments for the submission of any new CIP project worksheets to be included in the annual CIP workshop in November and an update to previously submitted project already including in the CIP.
- A CIP project worksheet needs to be filled out completely and include as much information as possible. The Project description should include a reference to the project scope and clearly identify the major tasks involved in the project.
- Project costs should be as accurate as possible at the time of the estimate and the information available. This portion will be updated annually as target dates become closer.

- Estimates should incorporate the following: Architect, engineering fees, permitting, any other development fees, legal fees, site acquisition, site development, construction, and site improvements such as grading, draining or landscaping.
- The project narrative should include a statement about why the project is necessary and a statement describing the impact to the annual operating budget and any increase or decrease in the recurring costs to operate the project once it is completed and placed in service.

### <u>TIMING</u>

- The annual CIP covers at a minimum the next five years.
- The CIP is updated annually with a Board Workshop in November. The annual update is made to reflect the completion of projects, changing priorities and funding availability.
- The CIP should be adopted three months prior to the County's next annual operating budget cycle.

### **FUNDING**

- Analysis of project cost and funding sources should be conducted for all proposed projects on the CIP. This analysis will be updated annually, and funding gaps identified in both the short and long term.
- Strategies can be identified to close the funding gap and may include altering a project's scope, adjusting the timing or breaking a larger project into smaller phases.
- Availability of funding for a specific project can impact its priority.

### <u>SCOPE</u>

- Only projects meeting a public purpose and strategic plan objective should be proposed.
- In General, the Capital Improvement Plan is limited to projects which the County owns or intends to own and the County has an obligation to maintain, but exceptions are made for collaborative community projects.

### PARTICIPANTS

- Projects proposed for inclusion in the CIP should be initiated by departments, Board Members or as directed by the County Board of Supervisors.
- Project requests are submitted and updated annually to Public Works for inclusion in the annual Mono County Board workshop.
- Public Works will compile the CIP into a table for 5-year planning.

- The County Planning Commission shall annually review the capital improvement program for consistency with the general plan before adoption by the Board of Supervisors.
- The County should provide meaningful opportunities for public comments concerning the final CIP schedule prior to adoption by the Board of Supervisors.
- The Board of Supervisors will adopt by affirmative vote the CIP Schedule in advance of the County's next annual operating budget cycle.

### PRIORITIZATION

- Projects will be prioritized on a scale ranging from 1 to 5 with 1 being the highest priority and 5 being the lowest priority by the Board of Supervisors annually.
- The prioritization of the CIP projects will inform the budgeting process and will take place at the annual Board of Supervisors workshop in advance of the normal operating budgeting cycle.
- Prioritization may be based upon the following criteria:
  - 1. Departmental justification rationale
  - 2. Overall amount of funding available and the time frame that funding is available for the project
  - 3. Operational impacts of the proposed project
  - 4. Projects identified in the County's General Plan Importance of public safety, health and welfare and the relative risks mitigated by completion of the project
  - 5. Significant benefit to the public good and economic welfare of the community
  - 6. Client service or capacity enhancements
  - 7. Level of risk of obsolescent should the County not proceed with implementation of the project
